

NORTH EAST LINK

COMMUNITY CONSULTATION

North East Link will finally connect the Metropolitan Ring Road at Greensborough to the Eastern Freeway or EastLink.

Fixing the missing link in Melbourne's freeway network will deliver enormous benefits and we'll be working with the community to get the best possible results.

We look forward to hearing from Victorians: from the Latrobe Valley through to those along the Hume Highway and everyone in between, to understand where they travel and what connections they need.

There will be many opportunities for people to help shape the project and have their views heard. We welcome contact from interested community groups who would like to meet with our project team.

How to get involved

Come to information sessions and forums

These events will be advertised in advance. Many will be drop in sessions, so you can come at a time that suits you, talk with the project team or just browse through lots of project information on display.

Join the online conversation

Connect with us on Facebook. You can see what other people saying, read information and most importantly speak to other community members. Our team will also respond to questions.

Community Representatives' Forum

The Community Representatives' Forum is an important way to have community conversations.

The forum will include an independent chair, local government representatives, community members who live in the project area, road users, industry and businesses.

We'll be advertising membership opportunities in late 2017. If you would like to register your interest, please contact us.

SIGN UP FOR PROJECT UPDATES

Authorised and published by the Victorian Government, 1 Treasury Place, Melbourne

EastLink listened to local community wishes to use transparent panelling wherever possible to protect significant views from being cut off.

Community survey

The North East Link community survey will be open from late May until early August.

The survey will help us to:

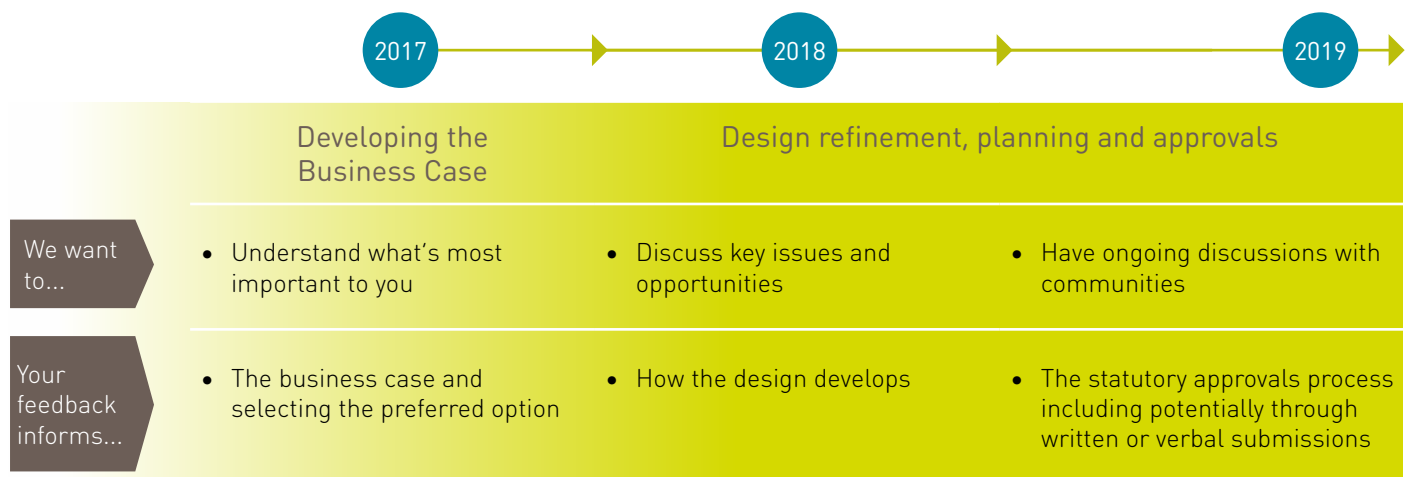

- Understand what people value in their local neighbourhood
- Gather information on how and when people travel around the North East Link study area and across the region
- Understand community views on improving transport infrastructure.

We want to hear from local communities and all road users including car and truck drivers, cyclists, pedestrians, residents, businesses and the freight industry.

You can find the link to the survey at northeastlink.vic.gov.au

If you would like to complete the survey by phone or by post, please contact us.
