

# WORKS NOTIFICATION

## PRELIMINARY SERVICE LOCATING

October – November 2018

Night and daytime trenching to visually verify the location of underground services in Yallambie, Viewbank, Rosanna and Macleod are happening from late October – November 2018.

What we find will help with continued planning for North East Link.

### What we are doing

We'll be digging small trenches to confirm the location of services in some locations. This involves:

- Using a road-saw to cut into the road then a high-pressure water and vacuum truck to dig a narrow trench across roads or footpaths to carefully expose underground services and verify their location.
- Managing traffic to ensure the safety of workers, pedestrians and cyclists and maintain traffic flow.
- Reinstating the site once investigations are complete.

### When and where is it happening?

Our visual inspection day works are between 9am and 3pm Monday to Thursday and our night works will occur between 8pm and 5am Sunday to Thursday. While these works will not impact your property, you may notice:

- Noise generated from the road-saw, the high-pressure water and vacuum truck and site vehicles when in use.
- Lighting facing our work areas as required, away from properties where possible.

Trenching works are planned for:

- Greensborough Road, Macleod
- Lower Plenty Road, Viewbank, Rosanna and Yallambie
- Borlase Street, Yallambie
- Lenola Street, Macleod
- Moorwatha Street, Macleod
- Strathallan Road, Macleod
- Yallambie Road, Yallambie

Traffic controllers will be directing traffic, cyclists and pedestrians safely around investigation sites with access to properties maintained. To ensure your safety and the safety of workers please obey any instructions and signs.

We will reinstate the work areas once investigations are complete.

#### Where can I find out more?

If you live near any trenching works we'll contact you before work starts.

If you have any questions about visual inspection works starting now, please contact us on 1800 105 105.
