

Works Notification

24 JULY 2020

Ford Park, Bellfield

Investing in local sports clubs and facilities

To ensure local sports clubs can continue to play and thrive during construction of the North East Link and beyond, we're investing in upgrades to sports grounds in Melbourne's northern and eastern suburbs.

Works to upgrade Ford Park, Bellfield, will start soon, so the clubs that need to be relocated can make a smooth transition to their new temporary or permanent homes.

What we are doing

CPB Contractors are starting construction of the new Ford Park pavilion and facilities, which includes:

- Installing temporary safety fencing around the worksite
- Constructing a site compound for worker facilities, car parking and a lay down area for materials
- Implementing environmental controls such as tree protection, silt traps and dust suppression measures
- Commencing earthworks for the construction of the new pavilion and sporting facilities.

Where we are working

- In the carpark and on open space around **Ford Park, Bellfield**.

These site works will take place on weekdays commencing **Monday 3 August 2020**. Please note dates are subject to change.

These are day works from **7am to 6pm**, Monday to Friday, and **7am to 3pm** Saturdays.

What you may experience

During these works you may notice:

- Work crews and an increase in construction vehicles in the area
- Noise from plant and equipment such as tippers, excavators, concrete trucks and generators
- Light and dust.

Pedestrian detours will be implemented and traffic controllers will be in place near the works to guide you safely through the area.

Our community engagement team will be available to assist residents during the works. Safety is our priority and we ask your assistance with obeying instructions and signage.

We appreciate your patience and understanding throughout these works.

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the North East Link Project, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
